# MAKING PLARN OUT OF NEWSPAPER BAGS

Step 1: Smooth out the bag and fold it lengthwise two times.

Step 2: Measure one-inch marks along the bag and cut to make loops.
Trim the loop at the closed end of the bag.

Step 3: Overlap one loop over another. Pull the inside end of
one loop back through itself and pull to create a tight knot.
Continue adding loops to create a skein of plarn.
